Work Experience

Cort Software, Inc.

Software Engineer Bend, OR. May 2007 to Present

I am part of a development team building the next generation of the company's Payroll and Human Resource Management product in VB/ASP.NET 2.0/SQL Server 2005. My responsibilities include all phases of development from Design to Coding to Testing in a SCRUM development methodology.

Orbit Development

Consultant, Bend, OR. Feb. 2006 to May 2007 -

Database programming and ASP and ASP.net web application development, I worked contracts on a variety of web related tasks from server administration to custom application development and coding all of which drew on my background in Systems Administration.

GLSuite, inc.

Application Developer, Bend, OR. Nov. 2004 - Feb. 2006

Application Developer on a web-based licensing management product. The technologies involved were VB.Net, ASP.NET, MS T-SQL, Javascript, XML, XPath, Crystal Reports and Microsoft Windows Server 2000/2003. I created custom ASP.Net web pages and Querying XML documents via XPath statements. Wrote custom SQL for Crystal Reports, T-SQL Stored Procedures, and data conversion code, integrating with 3rd party applications. Troubleshot application inconsistencies and mis-configuration, application server management.

Kipe & Associates

Web Application Administrator, Beaverton, OR. Jun. 2004 -Nov.2004

Troubleshooting and maintenance of web applications running on Windows 2000 and 2003 servers and Sun Solaris servers, providing technical support for software developers, developing scripts to automate repetitive tasks in a mixed-platform enterprise environment.

UNICOM

Systems Programmer/Network Administrator, Bend, OR. Jun. 2002 - Jun. 2004

Maintain corporate Windows 2000/XP/2003 network servers and workstations.

Education

Associates of Science in **Computer Information Systems**:

Central Oregon Community College, Bend, OR - June 2001

- I maintained a 4.0 GPA and Deans List Honors while at COCC.

Sun Microsystems Java Programming Language 5-day workshop. Jun. 2003
